COMPANY OVERVIEW

CEO: Jade Kim | **Established:** 02. 2013 | **Business:** Manufacture, Distribution

KMS Partner, a venture company, was established in 2013 and has specialized in researching and developing ZEUS mini-beam projectors until now. Manufacturing, production, marketing and sales are carried out as one system, and through domestic and international R&D and local factories in China. We are developing new products. Compared to the products of large companies, it is a product with high cost-effectiveness such as price and quality, and has already been verified by many. It is a company that has secured a professional fanatic base with its rough products and is trusted by many consumers.
