COMPANY OVERVIEW

CEO: Sungju An | Established: 09. 2005 | Capital: \$650K | Team: 24 | Business: Manufacture, Trade

M&G ENT.CO.,LTD. Is an ICT device manufacturer for education/business, located in Seoul, Korea. The main business fields are smart education environment installation and related product OEM/ODM manufacturing like beam projectors and interactive whiteboards. Since 2005 we have released new products for smart education continuously such as the world's first dual-booting tablet, mirroring device, etc. And we have many projector line up from UST to High Brightness over 10,000 ANSI lm. We were awarded by the Korean government many times because of innovation and R&D, and our facility has qualified ISO9001/14001. Over 1000 schools in Korea use M&G's products.

MAIN PRODUCT

[Hardware Product]

Twokey Smart Education System | Applicable to: Education/Business

Twokey® Smart Education System is the best-selling product of us and is a combined system of Twokey® UST laser projector and Twokey® Canvas.

It is easy to use and cost-effective and can change normal classrooms into smart environments very simply.

Twokey Projector | Applicable to: Education/Business

TK-LU520U is the next generation Ultra Short Throw projector with a long-life laser light source.

It shows the more precise image with dual focus technology, which is very suitable for the educational environment.

Moreover, it supports various correction function such as 4 corners, 6 corners, barrel/pincushion, and grid.

- Projection: 3LCD, Brightness: 5200 ANSI lumen, Resolution: WUXGA(4K support), Contrast ratio: 5M:1

Twokey Canvas | Applicable to: Education/Business

TK-TC221 is a 98-inch front projection type interactive whiteboard. Response is very fast and accurate and any opaque material can be detected as touch input up to 10 points simultaneously.

Enamel coated surface and Al alloy frame are very durable. Smart Tray and Hotkeys with embedded software provide convenient user experience.

- Sensor: 4 Sided IR LED sensors, Touch Accuracy: ~0.1mm, Response time: 7ms, Recognition speed: 125 points/s

Twokey SmartBeam | Applicable to: Education/Business

Twokey SmartBeam is a multi-purpose, compact and smart mini LED Projector that has superior brightness and resolution compared to existing ultra-small projectors and has a longer life light source with competitive price. It supports advanced features such as Android-based smart mirroring and corner keystone, so that it is easy to install and use. And entertainment apps such as YouTube and Netflix can be opened directly so Twokey Smart-Beam is very suitable for various activities like daily life, camping, and education.
